This pillar measures the availability of efcient and accessible ground

and port transportation

to important business

centres and tourist

attractions.

The air transportaion is very fastest transportaion in world

He successfully led the
Latin American and
Caribbean Air Transport
Association (ALTA)
between October 2017
and May 2020 promoting
positive change in the
organizatio

Prior to joining ALTA Luis
Felipe served as World
Fuel Services' Vice
President Supply
Development for Latin
America and Caribbean
where he was
responsible for improving
World

This dataset has been compiled through meticulous labor by researchers all over the world to give you a comprehensive detail into air transportation networks from around the globe.

Does

What behavior have we observed? What can we imagine them doing?

Robustness of air transportation and highspeed rail networks
Aside from SNA air transportation and HSR networks have been analyzed as complex networks in the frame of graph theory in order to understand network robustness which refers to the ability to avoid malfunctions when an emergency arise

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
